

## Homework 1

**Due Wednesday 7 April 2010 7:00 pm**  
**Hard copy due Thursday 8 April in class**

All problems are from the text.

1. Exercise 2.13 page 54.
2.
  - a. Create and populate a (small) Sqlite database for your application from the previous problem.
  - b. Phrase four representative queries in English and write the SQL to answer them.  
The queries and SQL will be very simple since you only know a little SQL at this point.

Turn in the files containing the database, the English queries and their SQL counterparts, and the results of the queries.
